Produmex Manufacturing Configuration Guide

This document describes the settings of Produmex Manufacturing add-on. It helps to precisely configure Produmex Manufacturing according to the user's needs.

Produmex Manufacturing is an add-on for SAP Business One, a leading enterprise information system for small and mid-sized businesses.

> It is recommended to avoid the asterisk (*), pipe (|) and apostrophe (’) characters in Produmex or SBO master data because these characters have a special role in Produmex products.
