

Compatibility Matrix

Produmex Manufacturing, Produmex Quality, Produmex Operator and Produmex EPOD are legacy products and Boyum IT Solutions no longer sells new installations for them.

Supported SAP Business One versions

	8.82	9.0	9.1	9.2	9.3	10.0
Produmex WMS	No	No	No	No*	Yes	Yes ¹
Produmex Scan	No	No	No	No*	Yes	Yes ¹
Produmex Manufacturing	No	No	No	No*	Yes	Yes ²
Produmex Operator	No	No	No	No	Yes	No

*Support for SBO 9.2 is dropped on 1st of January 2021. For more information click [here](#).

¹From product version 2020.06, Produmex WMS and Produmex Scan support SAP Business One 10.0. For information on patch level compatibility consult with the release notes.

²From product version 2020.06, Produmex Manufacturing supports SAP Business One 10.0.

All the products are compatible with both MSSQL and HANA platforms.

Note:

- Compatibility means the ability to install the solution on that particular SBO version and use the complete set of functionality of the solution. Some SBO functionality (most typically recent functions) might not be fully integrated in that context.
- Bug fixes are delivered only for the supported versions.

Cross-compatibility matrix

	WMS	EPOD	Manufacturing	Scan	Weight	Operator
Produmex WMS		Yes	Yes		Yes	
Produmex EPOD	Yes			TBD		
Produmex Manufacturing	Yes			Yes	Yes*	
Produmex Scan		TBD	Yes			Yes
Produmex Weight	Yes		Yes*			
Produmex Operator				Yes		

*The installation of Produmex WMS is required.

Note: Products are considered compatible when they can co-exist in the same system, without

conflicting with each other.

Produmex WMS Add-On Loader versions

The following matrix indicates which Add-On Loader version is required for which Produmex WMS add-on version:

Add-on version	Add-On Loader version
6.x	6
7.0 - 19.4	7
2020.06 and later	20
2021.07 and later	21
