Version 18.1.

Produmex Download Page
Download Version 18.1

Tested SAP B1 versions

- SAP B1 9.2 PL10 HF 2 (MSSQL 2014, 2016, HANA 122.05)
- SAP B1 9.3 PL02 (MSSQL 2016, HANA 122.05)

Note: Older and newer SAP B1 versions will usually also work, but haven't been specifically tested in this version.

Important remark
Please note: If you are using Produmex Scan in addition to Produmex Manufacturing, upgrade both in order to be compatible with each other.

Before the upgrade, please check the release notes of the intermediate versions between the current versiona and the version you would like to upgrade to.

New Functions

- Support multidimensional distribution rules during BoM and production order import
- Enhanced life-cycle handling in Produmex PDC
- Allow to set production line on the Production Management Cockpit for multiple production orders in one step
- Batch attribute booking with Produmex PDC
