3.1. Produmex Manufacturing Add-on

The PDC bookings created by the mobile PDC are stored in the SAP database/schema in user tables. These tables are created by the Produmex Manufacturing add-on which means you cannot use the Produmex PDC until you have installed the add-on and run the database setup. The used production orders also need to have the Produmex Manufacturing Settings in order to be able to user the mobile client.

For more information about installing the Produmex Manufacturing Add-on, please see: Produmex Manufacturing Installation Guide

Not all versions of the Produmex Manufacturing add-on and the Produmex PDC client are compatible with each other. We recommend always using the latest versions of both.
