

16. Scheduled Reallocator

Produmex Manufacturing is a legacy product and Boyum IT Solutions no longer sells new installations for it.

The Scheduled Reallocator will run on predefined times and reschedules the allocations of certain production orders.

16.1. Set up the Scheduled Reallocator

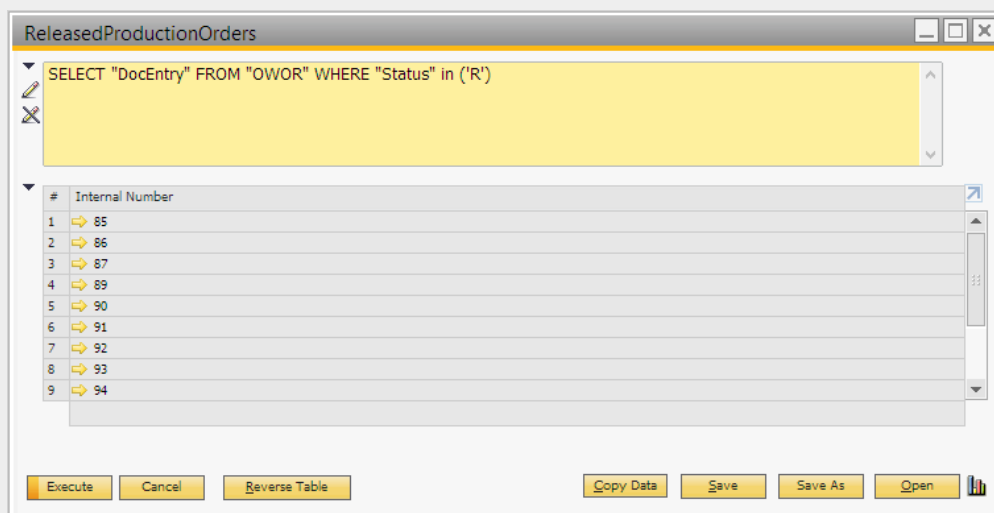

Configure the settings of the Scheduled Reallocator on the Scheduled Reallocator tab of Produmex Manufacturing settings.

Add the query for the Scheduled Reallocator with the Query Manager. Save it as the Query Name defined on the Scheduled Reallocator tab of Produmex Manufacturing settings.

In the example we will add the following query:

```
SELECT "DocEntry" FROM "OWOR" WHERE "Status" in ('R')
```

The query will get every released production order.

16.2. Reallocation

The Scheduled Reallocator will run on times defined and on the machine defined in the Scheduled Reallocator tab of Produmex Manufacturing settings.

If the add-on is not running at the defined time, the reallocation begins after the add-on is started.

When the scheduled reallocator runs, the system reschedules the production orders that are the result of the scheduled reallocator query.

In the example the allocations of the released production orders will be rescheduled.

Job Scheduling Control Panel

BEFORE REALLOCATION

Daily	07/26 (We)	07/27 (Th)	07/28 (Fr)
waS Assembler Team		63/GPAS	81/GPAS
waT Assembler Team	63/GPAS	63/GPAS	23/GPAS
woD John Doe			

AFTER REALLOCATION

Daily	07/26 (We)	07/27 (Th)	07/28 (Fr)
waS Assembler Team		63/GPAS	81/GPAS
waT Assembler Team	23/GPAS	63/GPAS	63/GPAS
woD John Doe
