Produmex Manufacturing: Performing a Version Update

Produmex Manufacturing is a legacy product and Boyum IT Solutions no longer sells new installations for it.

> Make sure that you check the release notes of the new version before starting the upgrade, because it might contains important information regarding the upgrade.

1. Produmex Manufacturing Add-on

The steps of a version upgrade for the Produmex Manufacturing add-on are identical to a new installation.

If you are upgrading from a version higher than 17.05, it is not required to uninstall the current version before starting the upgrade.

When the add-on is started the first time after the upgrade, the database setup will run.
In order to run the database setup, a database backup that was created within an hour is required on an MSSQL environment.

Please note: Before performing an SBO patch level upgrade, remove the foreign keys if there were installed. You can remove the foreign keys by: Tools > Produmex Manufacturing > Produmex Data Management > Remove Foreign Keys.

2. Produmex Service Broker

If you are upgrading from version 17.09 or higher, it is not required to install a new version of the Service Broker for an upgrade of Produmex PDC/Scan. If you are upgrading from a version previous to 17.09, please take the extra steps described here: Version 17.09. The steps of a version upgrade are identical to a new installation.

> If you would like to uninstall the 32-bit DI API when upgrading to the 64-bit Service Broker, it is advised to uninstall both the 32-bit and the 64-bit DI API and then install the 64-bit DI API again because on certain SBO versions the uninstallation of the 32-bit DI API can cause issues for the 64-bit DI API.

Compatibility matrix

	Service Broker Version				
	18.2.	18.1.	17.11.	17.09.	17.05.

Server Module version	18.2.	✔	✔	✔		
	18.1.		✔	✔		
	17.11.			✔		
	17.09.				✔	
	17.05.					✔

3. Server Module

The steps of the version upgrade for the server module are identical to a new installation.

4. Produmex PDC Processor

The steps of the version upgrade for the PDC Processor are identical to a new installation.

5. Produmex PDC Client

The steps of the version upgrade for the PDC Client are identical to a new installation. If you are upgrading from a version higher than 17.09, it is not required to uninstall the current version before starting the upgrade.
