

# Produmex WMS 2023.04

[Produmex download page](#)

[Download version 2023.04](#)

## **Tested SAP Business One versions**

- SAP B1 10.0 FP2208 HF2 64-bit MSSQL 2017
- SAP B1 10.0 FP2208 HF2 64-bit HANA 2.00.044.00

*Note: Older and newer SAP Business One versions usually also work, but have not been specifically tested in this version.*

Make sure that you do not use SBO10 PL3 (FP2008) or PL4 (FP2011) including any of their hotfixes with Produmex WMS. If you are about to upgrade SAP Business One to a PL higher than the one we have tested Produmex WMS on, make sure that you always test your Produmex WMS processes in a test SAP environment before performing the SAP PL upgrade on the live environment. For more information click [here](#).

**DB version: 760**

**DB Branch version: 0**

**Required Add-On Loader version: 21**

## **Additional setting and field regarding changing Shipping Type**

- Short description: Addition of a new setting to the Packing Controller and a new field to the packing flow regarding changing the Shipping Type for Logistic Unit. When the setting is enabled, it allows selecting the Shipping Type in a new field (it doesn't matter if Manual or Auto Shipping) when a Logistic Unit is completed at the packing flow. This is especially useful for customers that get to know the carrier at the end of the sales cycle. When the setting is off, Shipping Types are only configurable at the base documents: Sales Orders, A/R Invoices or Inventory Transfer Requests.
- A new setting to the Packing Controller regarding changing the Shipping Type.
- A new field to the thin client to select between Manual and Auto Shipping types before finishing the Logistic Unit.
- See documentation [here](#).

## **Bug fixes**

Ticket	Description
N/A	Possible to scan a movable location from another warehouse in the Prepare Carts flow
N/A	Not possible to autoship no track location serial items if the log.unit was prepared with Prepare Carts flow
N/A	Possible to scan an SSCC prepared for another pick list in the wave in the Consolidated Packing flow
190701	The quantity '16' is not rounded to '2' decimals <a href="#">2023.04.00</a>
195463	Error message when receiving item in liter/kg <a href="#">2023.04.00</a>
192837	Packing new SSCC selection not working on thin client <a href="#">2023.04.01</a>
193030	Randomly missing window "enter SSCC or new SSCC" at beginning of picking <a href="#">2023.04.01</a>
165390	Mandatory field at Container management <a href="#">2023.04.01</a>
195721	Interfacing tool - Import MOVE document is not working with batch managed items <a href="#">2023.04.01</a>
188860	Picking catchweight item with full SSCC as an alternate stock <a href="#">2023.04.01</a>
195816	PMX WMS - Random error when shipping <a href="#">2023.04.02</a>
197098	SSCC Adhoc Picking <a href="#">2023.04.02</a>
197666	Scanning GS1 DataMatrix on 'Scan a product' screen <a href="#">2023.04.02</a>
195176	Undo Picking not working for serialized items <a href="#">2023.04.02</a>
198306	Transfer from other Warehouse <a href="#">2023.04.02</a>
196453	Error message when receiving item in liter/kg <a href="#">2023.04.02</a>
N/A	Packing: ITR picklist is not loaded <a href="#">2023.04.02</a>
N/A	BEAS/WMS integration - the production issue is blocked on Hana environment <a href="#">2023.04.02</a>
199097	Locking after picking for a Beas Work Order -Clarification - Ad-hoc moves can be done <a href="#">2023.04.02</a>
185706	LUID value is not passing through to the report when printing event 200 from HookFlow <a href="#">2023.04.03</a>
199287	Issue shipping loaded SSCC - Base document closed <a href="#">2023.04.03</a>
N/A	The displayed error message in the PMX Suite Installer is not meaningful when failing to install the PMX License Server <a href="#">2023.04.03</a>
