

# Produmex WMS 2023.06

[Produmex download page](#)

[Download version 2023.06](#)

## Tested SAP Business One versions

- SAP B1 10.0 FP2208 HF2 64-bit MSSQL 2019
- SAP B1 10.0 FP2208 HF2 64-bit HANA 2.00.044.00

*Note: Older and newer SAP Business One versions usually also work, but have not been specifically tested in this version.*

Make sure that you do not use SBO10 PL3 (FP2008) or PL4 (FP2011) including any of their hotfixes with Produmex WMS. If you are about to upgrade SAP Business One to a PL higher than the one we have tested Produmex WMS on, make sure that you always test your Produmex WMS processes in a test SAP environment before performing the SAP PL upgrade on the live environment. For more information click [here](#).

**DB version: 761**

**DB Branch version: 0**

**Required Add-On Loader version: 21**

---

## Additional changes

- Workflows in the Organizational Structure are now given descriptions and documentation links, can be filtered by name and line numbers are added to their code. [See documentation](#).
- The Duplicate Parameter Set enables users to easily duplicate and customize flow settings, and execute processes concurrently for efficient multitasking and optimized workflow management. [See documentation](#).
- In the Customization mode of the Mobile Thin Client, users can personalize the interface, customize screen layouts by hiding elements and set default buttons in all workflows. [See documentation](#).
- All the log files to all of the components of WMS (i.e. Fat Client, Licence Server, SBO Notification Listener, ScaleComm Service and the Add-On) are now saved into one common directory (%ProgramData%\Boyum IT\WMS) after the upgrade (users are notified before the

database upgrade). The change applies to users who kept the original settings and only to the upgraded component(s). [See documentation.](#)

- New, hidden setting for the fat client configuration file for testing purposes i.e. forcing search for picklist number. [See documentation.](#)

## Bug fixes

Ticket	Description
188083	PLP Robot creates duplicated PLPs for the same item line in original SO <a href="#">2023.06.00</a>
198576	Quality types are asked twice when using bulk reception flow <a href="#">2023.06.00</a>
188855	Debug log display full passwords <a href="#">2023.06.00</a>
200297	Only pick items on location on same or lower level as dock? (Y/N) <a href="#">2023.06.01</a>
200249	Picklist Proposal Assigns Batch that is no longer in inventory <a href="#">2023.06.01</a>
199219	Bug with View for Waves <a href="#">2023.06.01</a>
199921	Packing flow freeze when 'Force user to rescan SSCC' is ON <a href="#">2023.06.01</a>
201725	Shipping type is not changing during the packing process [follow-up 199378] <a href="#">2023.06.02</a>
N/A	Visible checkbox is not displayed if the name of the Control is too long <a href="#">2023.06.02</a>
N/A	Touch: right arrow in wrong place in customization mode long <a href="#">2023.06.02</a>
200543	PLP Scanning BarCodes GS1 with the gun <a href="#">2023.06.03</a>
179393	in HANA it is possible to bulk change a QC-Status in Inventory Report, even if a proposal locks that quantity. <a href="#">2023.06.03</a>
185013	Replenishment moves randomly do not complete <a href="#">2023.06.03</a>
173277	OSE History Config Unhandled exception - necessary HANA privileges are not set <a href="#">2023.06.03</a>
201404	Cannot post delivery document - error message <a href="#">2023.06.03</a>
N/A	Scanner: Double cog on message in AdHoc Move flow <a href="#">2023.06.03</a>
N/A	Scanner: No cog on Moving the full logistic unit screen <a href="#">2023.06.03</a>
174069	Strange behavior when using Print Event Filter - NotForCustomerCollect - PRFNCUCO <a href="#">2023.06.04</a>
203684	When creating a Pick List Proposal Produmex allocates incorrect batch <a href="#">2023.06.04</a>
