Tested SAP Business One versions

- SAP B1 10.0 SP 2411 64-bit MSSQL 2019
- SAP B1 10.0 SP 2411 64-bit HANA 2.00.059.09

Note: Older and newer SAP Business One versions usually also work, but have not been specifically tested in this version.

Make sure that you do not use SBO10 PL3 (FP2008) or PL4 (FP2011) including any of their hotfixes with Produmex WMS. If you are about to upgrade SAP Business One to a PL higher than the one we have tested Produmex WMS on, make sure that you always test your Produmex WMS processes in a test SAP environment before performing the SAP PL upgrade on the live environment. With SAP B1 version 10.0 SP 2311 when trying to access database table via User Interface (UI) API, the user might get an error *"Cannot access table. Please check it is listed in the allowed list. For more information, see SAP Note 3375193."*
To solve the issue, go to **Administration → System Initialization → General Settings → Services tab → UI API Configuration group**, click the '...' button after 'Enable Query Validation' and append the table to the list. Alternatively, turn off 'Enable Query Validation'.

With SAP B1 version 10.0 FP 2405 when trying to access database table via Data Interface (DI) API, the user might get an error *"Cannot access table. Please check it is listed in the allowed list. For more information, see SAP Note 3399053."*
To solve the issue, go to **Administration → System Initialization → General Settings → Services tab → DI API Configuration group**, click the '...' button next to Enable Query Validation and append the database table to the allowlist.

New Feature:

End-Customer's Feedback - Documentation

The implementation of allowing end-customer's feedback. Including our first survey that customers can reach through WMS Add-on, WMS Mobile and Touch Client. As an additional extra we added some useful information, customers now can access the following topics:

- Product News
- Product roadmap
- Knowledge articles in our community
- Updates from the latest release

Please note the survey can only be accessed once per user!
