

Produmex WMS 2025.12

[Produmex download page](#)

[Download version 2025.12](#)

Tested SAP Business One versions

- SAP B1 10.0 SP 2511 64-bit MSSQL 2019
- SAP B1 10.0 SP 2511 64-bit HANA 2.00.059.09

Note: Older and newer SAP Business One versions usually also work, but have not been specifically tested in this version.

Make sure that you do not use SBO10 PL3 (FP2008) or PL4 (FP2011) including any of their hotfixes with Produmex WMS. If you are about to upgrade SAP Business One to a PL higher than the one we have tested Produmex WMS on, make sure that you always test your Produmex WMS processes in a test SAP environment before performing the SAP PL upgrade on the live environment. For more information click [here](#).

With SAP B1 version 10.0 SP 2311 when trying to access database table via User Interface (UI) API, the user might get an error *“Cannot access table. Please check it is listed in the allowed list. For more information, see SAP Note 3375193.”*

To solve the issue, go to **Administration → System Initialization → General Settings → Services tab → UI API Configuration group**, click the '...' button after 'Enable Query Validation' and append the table to the list. Alternatively, turn off 'Enable Query Validation'.

With SAP B1 version 10.0 FP 2405 when trying to access database table via Data Interface (DI) API, the user might get an error *“Cannot access table. Please check it is listed in the allowed list. For more information, see SAP Note 3399053.”*

To solve the issue, go to **Administration → System Initialization → General Settings → Services tab → DI API Configuration group**, click the '...' button next to Enable Query Validation and append the database table to the allowlist.

DB version: 790

DB Branch version: 0

Required Add-On Loader version: 22

Release Notes

Previous Release: 2025.09

Updates:

Adjustment to SAP License Manager Port in Produmex License Server

Starting **from SAP B1 version SP2511**, the **License Manager port number has changed** from the previous default value of 40000 **to 40002**.

Users should specify the port number in the **Produmex WMS License Configurator** tool. This ensures that the Produmex License Server uses the correct port configured during the SAP installation or upgrade process.
