

Produmex WMS 2026.10

Release date: 2026.10.07

Boyum Download center

- [Produmex download page](#)

WMS SQL Version:

- [Produmex WMS Server 2026.10.00 SBO10.0 for MSSQL 64-Bit](#)
- [Produmex WMS ServiceBroker 2026.10.00 SBO10.0 for MSSQL 64-Bit](#)
- [Produmex WMS 2026.10.00 SBO10.0 for MSSQL 64-Bit](#)

WMS HANA Version:

- [Produmex WMS Server 2026.10.00 SBO10.0 for HANA 64-Bit](#)
- [Produmex WMS ServiceBroker 2026.10.00 SBO10.0 for HANA 64-Bit](#)
- [Produmex WMS 2026.10.00 SBO10.0 for HANA 64-Bit](#)

Tested SAP Business One versions

- SAP B1 10.0 FP2608 64-bit MSSQL 2019
- SAP B1 10.0 FP2608 64-bit HANA 2.00.059.09

Note: Older and newer SAP Business One versions usually also work, but have not been specifically tested in those versions.

Make sure that you do not use SBO10 PL3 (FP2008) or PL4 (FP2011) including any of their hotfixes with Produmex WMS. If you are about to upgrade SAP Business One to a PL higher than the one we have tested Produmex WMS on, make sure that you always test your Produmex WMS processes in a test SAP environment before performing the SAP PL upgrade on the live environment. For more information click [here](#).

With **SAP B1 version 10.0 SP 2311** when trying to access database table via User Interface (UI) API, the user might get an error "Cannot access table. Please check it is listed in the allowed list. For more information, **see SAP Note 3375193.**"

To solve the issue, go to **Administration → System Initialization → General Settings → Services tab → UI API Configuration group**, click the '...' button after 'Enable Query Validation' and append the table to the list. **Alternatively, turn off 'Enable Query Validation'.**

With **SAP B1 version 10.0 FP 2405** when trying to access database table via Data Interface

(DI) API, the user might get an error *“Cannot access table. Please check it is listed in the allowed list. For more information, see **SAP Note 3399053**.”*

To solve the issue, go to **Administration → System Initialization → General Settings → Services tab → DI API Configuration group**, click the '...' button next to 'Enable Query Validation' and append the database table to the allowlist.

DB version: 794

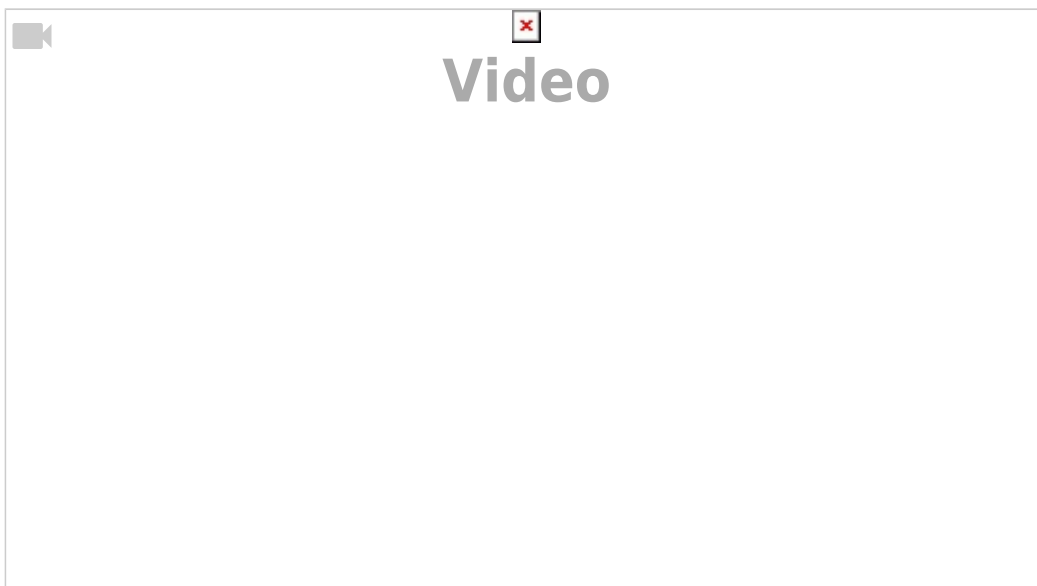

DB Branch version: 0

Required Add-On Loader version: 22

Release Notes

Previous Release: 2026.06

Video:

New Features of the major release:

Disclaimer: Major code refactor in Produmex WMS 2026.10

This **release includes a large internal refactor of Produmex WMS**.

It does not change how the product works for end users, but **customizations may be affected**.

WMS Mobile & Touch Client Visual Refresh - [Documentation](#)

The PMX WMS Visual Refresh modernizes the look and feel of the WMS while

preserving the proven workflows and operational reliability customers already rely on. It introduces a refreshed color palette, updated iconography, cleaner layouts and a clearer visual hierarchy, validated end-to-end across both the mobile device and the touch client. **Both the Mobile client and the Touch client have been updated.**

Note: Produmex WMS remains the same warehouse solution, now it simply looks as good as it already works.
