Version 3.19

3.19.1.4

- Print event filters for reception: Supporting PrintReportForEventWithParameters.
- Picking: Alternate items: Original quality status is no longer taken in account.
- Ad hoc move: Move partial LUID: Reduced number of actions in case a serial number is scanned, with track location set to true.
- Production: Enhanced production in batches handling on ProductionFlow
- Added structure for import for quality status changes.
- Production: Added possibility to create a picklist/proposal for production orders. This option can be enabled on the PickingForProductionController.
- Bugfixing

3.19.1.22

- Bugfixing

3.19.1.26

- Bugfixing

3.19.1.56

- Bugfixing

3.19.1.57

- Bugfixing
