Tested SAP Business One versions

- SAP Business One 10.0 SP 2308 HF1 64-bit MSSQL 2019
- SAP Business One 10.0 SP 2308 HF1 64-bit HANA 2.00.059.09

Note: Older and newer SAP Business One versions will usually also work, but have not been specifically tested in this version.

If you use Produmex Manufacturing and you upgrade to Produmex Scan 2021.10 or higher, make sure that you upgrade to Produmex Manufacturing 2021.10 as well. Without an upgrade, Produmex Manufacturing will not work because of version incompatibility.

New Feature

Brazilian Portuguese localization is available for the Produmex Scan framework, AddOn and client in its 2023.12 version.
