Produmex Scan 2024.09

Produmex Download page
Download version 2024.09

Tested SAP Business One versions

- SAP B1 10.0 SP2408 64-bit MSSQL 2019
- SAP B1 10.0 SP2408 64-bit HANA 2.00.059.09

Note: Older and newer SAP Business One versions will usually also work, but have not been specifically tested in this version.

If you use Produmex Manufacturing and you upgrade to Produmex Scan 2021.10 or higher, make sure that you upgrade to Produmex Manufacturing 2021.10 as well. Without an upgrade, Produmex Manufacturing will not work because of version incompatibility.

Produmex Service Broker must be upgraded for this version

With SAP B1 version 10.0 FP 2405 when trying to access database table via Data Interface (DI) API, the user might get an error //“Cannot access table. Please check it is listed in the allowed list. For more information, see SAP Note 3399053.” //
To solve the issue, go to Administration → System Initialization → General Settings → Services tab → DI API Configuration group, click the '...' button next to Enable Query Validation and append the database table to the allowlist.

Important Note:

- **From 2024.09 version of Produmex Scan**, the Scan **service broker & server module are no longer compatible with** the services broker & server module of **Produmex Manufacturing.**
  - For further use **you must install the components of Produmex Scan & Produmex Manufacturing on separate computers** to able to use the products without issues.

Bug fixes

Ticket	Description
238749	Page just reloading - Query stock for serial numbers2024.09.00

Ticket	Description
