

[Produmex Scan How-to Guides](#) >

How to Add a New Database to an Existing Installation

1. Assign the Produmex Scan Add-On to the database.
2. Start the add-on and run the [database setup](#). *When working on a MSSQL environment, create a database backup before starting the database upgrade.*
3. Open Produmex Service Manager. Click on the 'Setup Companies' button and add the database. Then click on the 'Companies' button and enable the company. For more information please see: [Produmex Service Manager](#)
4. Run the [configurator for Produmex Scan](#). On the General tab, select the database from the list of databases and click OK.
