5.1.3.10. Container management controller

Container management controller - Controls the containers

Allow to show purchase reserve invoices
If enabled, purchase invoices can be selected on the container management form.

Auto close container when delivered? (Y/N)
If enabled, the container will be closed when it is delivered.
If disabled, the container will be in status 'Delivered'.
This means that some fields can still be adjusted. Closing the container needs to be done through the Container management screen.

Color if values are in range
Defines the color the controls should get if the values are in range. If no maximum value is set, this color will also be used. This name needs to be a valid Windows color name.

Color if values are too high
Defines the color the controls should get if the values are higher than the 'in range' values. This name needs to be a valid Windows color name.

Color if values are too low

Defines the color the controls should get if the values are lower than the 'in range' values. This name needs to be a valid Windows color name.

Lead time in days between port and warehouse

The lead time in days between port and warehouse. This is used for the calculation of dates in the container management screen.

Lower threshold: price (%)

The lower threshold (in percentage) for the 'in range' values for the price.

Lower threshold: volume (%)
