Create Purchase Document Flow

Overview

Create a new purchase order on the shopfloor with the Create Purchase Document Flow.

Workflow

- Select destination warehouse
- Select a supplier
- Scan a product

- Product information
- Enter quantity
- Scan next
- Ordered item
- Select a task

Create Purchase Document Flow steps

1. Initiate the flow

From the Purchase menu select 'Create purchase document' option.

2. Select the destination warehouse

Select the destination warehouse from the list. Every warehouse assigned to the thin client is listed.

3. Select a supplier

Select the supplier form the list. Every supplier is listed.

4. Scan a product

Scan a product or select it from a list after pressing the 'Select a product' button. Every purchase item can be scanned or selected.

5. Product information

On the next screen the system displays product information:

- 1. Item code and description
- 2. Number of items per purchase unit
- 3. Item price
- 4. Available quantity in the warehouse (Quantity on stock that is not locked)

Press the 'Ok' button to proceed.

6. Enter quantity to order

Enter the quantity to order. For more information about entering quantity in Produmex please see: Screens for entering additional information

There is no limit for the quantity to order.

Scan a product	Product information	Enter quantity to order
> BarCode <	ITEM01, normal test (1)	
	# Items: (2)	1 KG
1	Price: (3) 1.00	•
		ITEM01, normal test (1)
	Available qty: (4) #48	6
Select a product		# Items: (2) 1
	ОК	Price: (3) 1.00 \$
Purchase items		
		Available qty: (4) #48 KG
😌 💿 😂 🙁 🕤	Ġ 💷 🏖 😆 🤅) Ġ 💷 🗞 🛞 🔿

7. Scan next product

Scan the next product or select it from a list after pressing the 'Select a product' button.

An additional 'Purchase items' button is displayed on the screen. Press this button to create the purchase order or to clear the list of items to purchase. The system proceeds to the 'Ordered items' screen.

To go back, press the left arrow button. When there are products in the list to order, the system asks for confirmation: Press 'Yes' to go back. The list of items to order is cleared. Press 'No' to proceed with the current order.

8. Ordered items

On this screen the list of items to order can be overviewed.

- 1. Item code, Item name description barcode
- 2. Ordered quantity
- 3. Item price
- 4. Total price of the order

Press the right arrow button to proceed.

Press the \bowtie icon to remove the selected item from the list.

Ordered items		
ITEM01, ITEM01 - normal test - 12345678901248 <mark>(1)</mark>		
#10 KG(2) (3) 1.00 \$		
ITEM02, ITEM02 - Anoter test item - 12345678901231
