

# Create picklist proposals with Robot Tool

The Picklist Robot supports Sales Orders, A/R Reserve Invoices, Inventory Transfer Requests and Production Orders.

The PMX\_PICK\_LIST\_ROBOT\_CREATE\_PROPOSALS view unifies the following views:

- PMX\_PICKLIST\_PROPOSAL\_MANAGER\_SALES
- PMX\_PICKLIST\_PROPOSAL\_MANAGER\_TRANSFER
- PMX\_PICKLIST\_PROPOSAL\_MANAGER\_PRODUCTION

The Picklist Robot duplicates the functionality of the Picklist Proposal Manager:

- If the result of the PMX\_PICK\_LIST\_ROBOT\_CREATE\_PROPOSALS view and the selected lines in the Picklist Proposal Manager contain the same document lines, the two different processes generate the same proposals with the same proposal lines.
