

Create picklist proposals with Robot Tool

The Picklist Robot supports Sales Orders, A/R Reserve Invoices, Inventory Transfer Requests and Production Orders.

The PMX_PICK_LIST_ROBOT_CREATE_PROPOSALS view unifies the following views:

- PMX_PICKLIST_PROPOSAL_MANAGER_SALES
- PMX_PICKLIST_PROPOSAL_MANAGER_TRANSFER
- PMX_PICKLIST_PROPOSAL_MANAGER_PRODUCTION

The Picklist Robot duplicates the functionality of the Picklist Proposal Manager:

- If the result of the PMX_PICK_LIST_ROBOT_CREATE_PROPOSALS view and the selected lines in the Picklist Proposal Manager contain the same document lines, the two different processes generate the same proposals with the same proposal lines.
