

3.1.2. Create a new tab per server

For each server that will have a Produmex WMS component installed, a new tab must be created on the Produmex Suite Installer screen. Typically, there are at least 2 servers.

- SAP server with the Produmex Tools, Fat Client & License Service (and other optional services) installed.
- Terminal server with the Produmex Fat Client installed.

Note: The Produmex license server should be installed on the same server as the SAP license server.

1. Add a new tab (for the SAP server in this example) by clicking on the + icon next to the General tab.
2. Provide the name of the SAP server and click OK.
