

3.3. Production order lines

The extra fields added to the BOM, are also added to the production order. When creating a new production order, the Produmex add-on will copy the data from the BOM to the production order in case the UDF's are named the same.

The following fields are used for picking for production: *(And not for Pick List for production)*

Quantity picked

The quantity that already has been picked for this component.

Batch(es) to pick

If a certain batch needs to be picked for this production order, this column needs to be filled with the batch to pick.

When multiple batches are required, those batches can be entered with a pipe as separator: '|'
