

## 2.3.19. Package Dimensions (PMX\_PADI)

Depending on the pick list type, the user might have to add the dimensions of the package after a logistic unit is finished during picking and packing. The user can enter the dimensions manually or select a package dimension that was defined on this table.

### **Code**

Internal code of the package dimension.

### **Name**

The name of the package dimension that is displayed on fat client screens.

### **Is the record canceled? (Y/N)**

If checked, it indicates that the record is cancelled and cannot be selected as the package dimension during picking or shipping. Cancelled records can be restored.

### **Width**

The width of the package.

### **Length**

The length of the package.

### **Height**

The height of the package.
